CHAMP CLARK DEMOCRATIC LEADER DEAD

VETERAN STATESMAN DIES AS HE WANTED TO DIE--IN HARNESS

Was Prominent Figure in Washington For More Than a Quarter of a Century--Last Thoughts Were of Life Work--Many Eulogies Are Paid By Prominent Men.

WASHINGTON, March 2.—Death closed today the career of Champ Clark of Missouri, for more than a quarter of a century a towering figure in national politics, a stalwart in the Democratic party. He died in the very shadow of the capitol.

Just over the way from the hotel where he has lived many years, house and senate seethed in the closing hours of the congress of which he was an honored member and leader. The stir of legislative battle was within him to the end. He lived again in memory, as his pulses flagged, days of the eight years he wielded the speaker's gavel in the house. Those sorrowing at his bedside heard the old chieftain mutter in his last delirium:

"The question is on adoption of the conference report." By mandate more binding than any written law, congress barely halted in reverence to mark the passing of the aged member. Knowing as the years had taught him to know the vital urgency of time in the closing days of a congress, the former speaker made known his will from what he knew was his death bed. His wish was carried to both houses that no halt in public business should be made at his death.

In obedience to that behest, the house, peopled with his personal friends of whatever party, halted a short half hour in adjournment, then marched on with its crowded program. Rucker Pays Tribute. In that pressing work, Mr. Clark took active share up to little more than ten days ago, counseling his party colleagues as Democratic leader until a cold struck him down to become a victim to the infirmities of his seventy years of driving life that he knew nothing of his political welfare.

His death threw a shadow over every face in the chamber when Representative Rucker of the Missouri delegation arose to announce it. His voice choked with emotion, for it was a halting, brief eulogy he pronounced, but he drew from members signs of sorrow more eloquent than words to tell of the place the dead leader held in their affection and respect. The formal motion for half hour adjournment was made by Representative Mondell, Republican leader.

Mr. Clark would have been 71 years old had he lived until next Monday, but his 26 years of service in the house would have ended Friday, for he was designated to a place yet to be designated and there lie in state. The next morning the last lap of the long and final journey to Bowling Green will be made and in the midst of home scenes and surrounded by those he so long represented, Champ Clark will be laid to rest.

Individual tributes to the memory of Mr. Clark quickly followed announcement of his death. Republicans, as well as his own party members, joined in paying respect to him. Among the individual tributes was a statement from "Uncle Joe" Cannon who preceded Mr. Clark as speaker and who, upon completing a record for service in the house, was the subject of one of the last addresses which Mr. Clark made from the house floor.

"Champ Clark died in the harness as I believed he preferred to die," said "Uncle." "Champ was my friend and colleague for more than a quarter of a century and we engaged in many contests on the floor without alienating our friendship or respect for each other. We did not strike below the belt."

From outside of congress came a tribute from Samuel Gomers, president of the American Federation of Labor, who declared "the death of Champ Clark is a loss to America and to American citizenship."

Colleagues of the former speaker recalled tonight that his last appearance in the house chamber was Feb. 14, the day before he was taken ill and that due largely to advanced age and

MANDATES WILL BE LEFT TO NEW ADMINISTRATION

Harding and Hughes Will Have to Wrestle With Problem

TEXT COUNCIL NOTE MADE PUBLIC

WASHINGTON, March 2.—Further steps in the controversies between the American government and the allies and the council of the league of nations over mandates for former enemy possessions will be left to President-elect Harding and Charles Evans Hughes, his secretary of state.

Decision of this administration to take no further action was made known today at the state department after receipt of the replies from the council and Great Britain to the American notes dealing with the mandates by Japan and for Mesopotamia, to be awarded to Great Britain. Officials said there was insufficient time for them to prepare answers before the change of administration Friday. They also indicated that it might be regarded as assumption if the act.

Committee Made Public. The text of the note from the league council was made public but that of the British note was withheld. The question of its publication officials said would be left to the new administration. The text of the council's notes as made public did not differ in any essential from that given out at Paris and contained in press dispatches from the French capital. Comment on the note was withheld by officials. It was evident, however, that the action of the league in postponing consideration of the mandates until May or June was received with satisfaction.

The American government has protested against Japan controlling the important cables centering on the Island of Yap. There has been a suggestion that the two questions, that of the mandate and the control of the cables, be separated and the cables placed under international control. Under the mandate, however, Japanese law extends over the island and that law prohibits the operation and control of cables by other than Japanese subjects. Legislative action by the Japanese diet would be required to give effect to such a settlement and it is said this cannot be assured at present.

VISITORS ARE GATHERING FOR THE INAUGURAL

Thousands Expected Despite Plans for Simplicity

COOLIDGE PROMISES BRIEF ADDRESS

(By The Associated Press) WASHINGTON, March 2.—The influx of visitors to Washington to attend the inauguration Friday has started. Despite the abandonment of plans for an elaborate ceremony, hundreds of people arrived today and tomorrow the number is expected to run into the thousands with other thousands to arrive Friday.

The special forecast of cold and probably fair weather for inauguration day which went out today from the weather bureau may result in materially increasing the out of town crowd as some folks who have wished to come probably have hesitated because of memories of bad weather at some previous inaugurations.

President-elect Harding with Mrs. Harding and a number of friends will arrive tomorrow afternoon from Marion. He will go direct to the New Willard Hotel, where he will make his headquarters until he starts for the capitol Friday morning.

Vice-president Coolidge and several members of the new cabinet already are on the ground. The cabinet officers designate here include Charles Evans Hughes to be secretary of state; Will H. Hays to be postmaster general; Edwin Denby, to be secretary of the navy; former Senator John W. Weeks to be secretary of war and Secretary Fall to be secretary of the interior.

Mr. Denby had a long conference today with Secretary Daniels.

He reiterated that he would aim to have a navy "ready for battle at all times," and also said he believed in giving every opportunity to the enlisted man for promotion and self betterment.

Vice-President-elect Coolidge worked today at his inaugural address which he intimated would be very brief and received political leaders and congressmen at his hotel apartments.

Whether President Wilson is actually to attend the inauguration of Mr. Harding still remains to be determined. White house officials said today the president was anxious to follow all precedents and the congressional inaugural committee had agreed to provide a chair for him on the east portico of the capitol. Other guests at the inauguration will stand during the ceremony and the delivery of Mr. Harding's speech.

It is definitely settled that Mr. Wilson will be present at the inauguration of Mr. Coolidge. He will ride to the capitol with Mr. Harding, but will not accompany him back to the White House as is the usual custom. Instead he will drive direct to his recently acquired home on S street where during the afternoon he will receive Democratic senate leaders and other official friends.

TWO TRUNK LINES TO REDUCE WAGES. NEW YORK, March 2.—Two large trunk line railroads served notice today that they intend to reduce wages paid their unskilled or common labor, and officials of the Association of Railway Executives declared they had no doubt their carriers soon would take similar steps thruout the country.

This action was started today by the New York Central and the Delaware, Lackawanna & Western railways. Both called representatives of their common labor for conferences on the subject. Should they fail to agree the matter would be referred to the labor board. Adjustment to lower levels of the pay of the common labor employed by carriers was put up to the individual companies in a letter from the association of railway executives February 22.

MELLON RESIGNS FROM BANK POSITION. Pittsburgh, Pa., March 2.—A. W. Mellon, who will serve as secretary of the treasury in the Harding cabinet today announced his resignation from the executive boards of numerous banking institutions here. He resigned the presidency of the Mellon National Bank, the vice-presidency and the Union Trust company and the Union Savings Bank, the directorship of the National Bank of Commerce of New York, and various corporations. Mr. Mellon will leave for Washington tomorrow night to be present at the inauguration of Mr. Harding.

HENDERSON COUNTY DONATES CORN FOR EUROPEAN RELIEF

Three Cars are Furnished by the Farmers of County

TOWN OF STRONGHURST MAKES IT HOLIDAY

(By The Associated Press) STRONGHURST, Ill., March 2.—Henderson county, Illinois, the first county in the United States to pledge a car of corn to the American Farm Bureau in its Herbert Hoover European campaign, kept its promise today with more than three cars of four thousand bushels.

The town made a holiday out of the farmers' donation. School children, each with an armful of corn, paraded behind a hundred heaped grain wagons. Three garages were turned into temporary restaurants and free dinners were served. Music and speeches were a part of the program.

This is one of the first of more than fifty corn days to be held in Illinois. Thirty will be held in other counties within the next two weeks to fulfill Illinois' share of a million bushels.

President Howard Leonard of the Illinois Agricultural association and Carl Vrooman of the American Farm bureau, former U. S. secretary of Agriculture gave addresses.

CASHIER OF BANK IN BLOOMINGTON TAKES OWN LIFE

Despondency Over Ill Health is Given as the Cause

OFFICIALS SAY AFFAIRS IN GOOD SHAPE

(By The Associated Press) BLOOMINGTON, Ill., March 2.—Edward M. Hoblit, cashier of the State Bank of Bloomington, committed suicide by shooting this afternoon after the close of business hours. The shooting took place in the wash room of the bank and the body was found a few minutes later by the janitor of the building. Despondency over ill health was the cause of the act, as indicated by a note found near the body addressed to his wife, in which he said:

"Ever since my operation of last spring I have been experiencing periods of depression and despondency which have recurred with increasing intensity until I realize that I am becoming a burden to my family and myself and I live in constant dread that my mental condition will become a permanent and unnecessary future care and burden upon all that I love. It is a great grief to say good bye, but I feel that I am doing best for you and Helen, (the daughter)."

Officers of the bank stated that the business of the bank was in perfectly sound condition and would be in no way affected by Mr. Hoblit's death. He was about 46 years old and leaves a widow and one daughter.

MAN WILL PLEAD "UNWRITTEN LAW"

Oklahoma Man Accused of Shooting Man Whom He Found With Arm Around Wife in Theater Will Make Plea.

(By The Associated Press) Okmulgee, Okla., March 2.—Information charging murder was filed today against George Ward, accused of fatally shooting Lotie Hoffman last night in a theater at Morris, eight miles east of here. The "unwritten law" will be Ward's defense his attorneys announced. Ward told authorities that following a warning from his wife's father, he found his wife and Hoffman, a former lover of Mrs. Ward's, at a theater with Hoffman's arm around his wife. He pulled a gun and after telling Hoffman that he would "not" break up another family, shot him, according to the authorities. Ward surrendered at once.

VOTE DOWN PROPOSAL TO PROCEED WITH TESTIMONY

Washington, March 2.—By a straight party vote the senate elections sub-committee in charge of the Ford-Newberry senatorial contest from Michigan today voted against proceeding with testimony. Republican committee members voted down a motion by Senator Wolcott, Democrat, Delaware to summon witnesses for March 15, in accordance with the request recently filed by Henry Ford, the Democratic contestant.

COMPTROLLER OF CURRENCY HANDS IN RESIGNATION

John Skelton Williams Takes Parting Shot at Critics

PRESIDENT EXPRESSES HIS DEEP REGRET

(By The Associated Press) WASHINGTON, March 2.—John Skelton Williams retired tonight as comptroller of the currency. In accepting his resignation "with deep and genuine reluctance," President Wilson wrote Mr. Williams that he had been done a gross injustice, by the way in which the senate banking committee had handled the question of his re-confirmation.

"I can only believe, however," said the president, "that time will disclose the injustice to everybody and that the right verdict will be rendered by opinion, if not by one of the houses of congress."

"I have had the pleasure upon more than one occasion of expressing to you the approval not only, but the administration, with which I have followed the administration of your office. You can carry away with you into private life the satisfaction of having performed the duties of comptroller of the currency in a way which has redounded, not only to the credit of this administration but to the material benefit of the financial interests of the country."

Parting Shot at Critics.

The president was writing in reply to a letter from Mr. Williams on Feb. 28, tendering his resignation, effective tonight and in which he took a parting shot at some of his critics in congress. The retiring comptroller charged that "certain senators who had the power to bring his nomination before the senate had dodged and evaded ignominiously."

Mr. Williams also wrote that since the "expressed opposition to his confirmation and prolonged hearings before two senate banking committees virtually had put him, by implication under charges he had felt that he was entitled to a verdict."

"I have urged and pleaded in vain," he said, "discussion in the open senate or executive of any section to my confirmation. My information is that Senator McLean of Connecticut, chairman of the banking and currency committee refused to report my case because he promised a certain partisan politician, not a member of the senate, that he would not report it."

"I am informed however, that the person to whom the promise was made recently consented to release Senator McLean from the obligations referred to, but the senate refused to submit the matter of my confirmation to a senate containing a majority of his own party."

"He had probably learned that considerable number of fair-minded Republican senators had been approving the rank injustice of his course and his petty politics, and would have voted to confirm my nomination even tho he had reported adversely."

Mr. Williams is retiring to his home in Richmond to become chairman of the board of directors of the Richmond Trust company. He was appointed comptroller of the currency by President Wilson in January, 1914, after serving nearly a year as an assistant secretary of the treasury, and was nominated in successive sessions of the senate in January, 1919, in June, 1919, December, 1919, and again in December, 1920, but action on these nominations never was had. Between some of the sessions he was continued in office by recess appointment.

Thomas F. Kane, first deputy comptroller of the currency will act as comptroller until Mr. Williams' successor has been appointed by President Harding. Mr. Williams' term of office would have ended automatically with the close of the Wilson administration Friday.

PRESIDENT-ELECT IS MOVED BY EMOTION IN FINAL FAREWELL

Many Tears Are Evident as He Bids Goodbye to Those Who Have Known Him Thru the Years—Asks for Prayers as Well as for Friendship—Colorful Touches in Parting

(By The Associated Press) MARION, O., March.—Speeded by a parting testimonial of affection from the people of their home town, President-Elect and Mrs. Harding left for Washington tonight to take up their duties at the white house.

In the leave taking there were many colorful touches of regret and Mr. Harding's final words to his friends and neighbors voiced a solemn realization of the trials that will beset his pathway. But he added that he faced the journey confidently, with an unflinching faith in the sympathy of his fellow citizens and providence of God.

The farewell message of the president-elect was delivered from the new famous front porch of his residence, here to a concourse of several thousands who had gathered to extend a formal farewell. As he spoke his voice trembled with emotion and Mrs. Harding, standing by his side looked out on the assemblage of familiar faces thru eyes dimmed by tears.

The special train carrying the next president and first lady of the land departed at 7:20 o'clock and will reach the capital at 1:30 tomorrow afternoon. They expect to go directly to a hotel, to remain until the inauguration ceremonies which begin on the following day.

Contrary to expectations, the president-elect began his trip to Washington with one cabinet selection still to be definitely announced. Yesterday he indicated that the remaining vacancy in his official family, the secretaryship of labor would be closed finally before tonight. There was no authoritative explanation for the change in plans, but the impression gained ground that important developments had intervened. Similarly the delay was interpreted as casting doubt on the chances of James J. Davis of Pennsylvania to sit in the cabinet.

Next to Mr. Davis those who have been prominently in Mr. Harding's mind as available for the secretaryship are James Duncanson of Massachusetts and T. V. O'Connor of New York.

Private Secretary Not Named. Another appointment not yet announced is that of a secretary to the president. The general understanding is that the place will go to George B. Christian, Jr., who has been Mr. Harding's private secretary since he entered the senate and who accompanies him now in the capacity. When he was pressed for a definite statement on the subject today, however, the president-elect said he felt there were reasons why the announcement should be delayed.

In the president-elect's party also are his father, Dr. George T. Harding, his sister, Miss Abigail Harding and Dr. C. E. Sawyer, who has been his personal physician since the campaign began.

As part of the farewell ceremonies at the front porch, the President-elect and Mrs. Harding were presented with a silver plaque bearing an inscription that invoked a blessing on them in the days to come. The gift was purchased by the people of Marion and was presented by Dr. Thomas H. McAfee, pastor of Trinity Church here.

Many Tears In Evidence. There were many wet eyes looking into Mr. Harding's as he came out to the edge of the veranda to respond. "One ought not trust himself," said the president-elect, "to speak his emotions on an occasion like this. Yet, somehow, I feel that if I say the things which are in my heart, I cannot go far wrong. You know I am grateful. I need not say it. I do not think there can come to a man anything more precious, anything more heartening, than the certified confidence and good esteem of his friends and neighbors. I do not know of anything bigger or better in the world."

"I have a theory of government that if you do for the nation what you do for the community, you do exceedingly well; because the nation is only the aggregate of communities. So I am going to play my part in the execution of my duties as chief magistrate of the Republic just as I would play it as a neighbor and fellow citizen in Marion."

"If I can do that which will add to the spirit of good will; if I can do that which will increase the confidence of citizenship and reverence to government, I know I will not have served in vain." (Continued on Page Four)

BRITISH PREMIER IS WON OVER TO VIEW OF FRENCH

Consents to Employment of Armed Forces

GERMANS ARE RATHER DESPONDENT

(By The Associated Press) LONDON, March 2.—(By The Associated Press.)—The Germans at noon tomorrow will hear the unanimous decision of the allied powers on the counter-proposals which Dr. Simons the German foreign secretary and head of the German delegation presented yesterday at the reparations conference in Lancaster House and the consequences which will follow failure to comply with the allied terms.

There is little doubt as to the nature of the reply for in it a statement issued after a meeting of the supreme council this evening, the counter-proposals are described as meriting "neither examination nor discussion."

Details of what steps will be taken to enforce the demands of the allies are withheld tonight, it being considered only an act of courtesy to let the Germans hear them before they are published. But it is learned that the British premier has been won over to the French view.

Lloyd George Consents. Mr. Lloyd George consented today to the employment of armed forces against Germany in the event of her non-compliance, to the extent of the occupation of Mannheim by the French and Belgian troops and also of the Ruhr ports on the Rhine.

They may possibly also be a blockade of German ports although some of the powers are opposed to this.

The Germans who remained in their hotel thruout the day, scarcely scanning the tickers, questioning callers regarding the happenings at St. James' Palace and communicating what they could gather to Berlin were despondent tonight when their hopes that differences might arise between the allies to lighten their country's burden were dashed by findings of the conference. One of them remarked:

"Well, perhaps that is the only way out. If Briand yielded his government would fall, if we yielded, our government would fall. Therefore, the only course is for the allies to impose their terms."

President Wilson has not always been accounted as especially faithful to his friends during the years of his administration. In fact, the president has come to the parting of the ways with an unusual number of men associated with him in one way or

another. But it must be said that Mr. Wilson in the closing days—almost hours—of his administration has left no stone unturned in the endeavor to secure life jobs for a number of his adherents. His zeal in this regard is without parallel.

Champ Clark of Missouri, who served so long in congress, cannot properly be listed as a great statesman, but he did have experience and judgment that made him of value at Washington. The Missouri congressman had as well a quality of friendliness that enabled him to get on well even with his political opponents. He made friends, political and personal, and kept them thru the years. A man who can do this must have something really worth while in his character.

Jacksonville is to be honored today by the presence of Miss Jane Addams of Chicago, a prominent welfare worker. Miss Addams is best known to the world thru Hull House, and the development it has meant in settlement work. But Hull House has been only one of her contributions to civic life and society in general.

A woman of broad vision and so something of an idealist, she has with these qualities the practical good sense that makes good dreams come true. Miss Addams is rightly classed among the great and her presence today will add to the importance of the vocational building dedicatory program.

There are many things to indicate the bettering of business conditions. Not the least of these is the statement from a well known automobile manufacturer that every auto factory will be running on a normal time basis by April 1. If this prediction comes true general industrial activity may be anticipated.

This statement brings to mind that there is promise that the automobile show soon to open in Jacksonville will surpass expectations. Those who have visited the Auto Inn and have seen the preparations in progress are convinced that the business exhibit will be the best thing of the kind ever attempted in Jacksonville.

A SURE ENOUGH SECRETARY

President-Elect Harding has confirmed the report that former justice Hughes is to be his Secretary of State. Along with the announcement comes the statement that "from the beginning the Secretary of State will speak for the State Department." That means that Mr. Hughes will be the actual head of the

State Department, and responsible for its policies, rather than a mere amanuensis to record what the President may dictate. Messrs. Bryan and Lansing filled the latter role in the Wilson cabinet. It was not as yet that Mr. Bryan resigned because the notes which the President ordered him to transmit did not accord with his own views. Mr. Lansing, likewise, was a little more than a recorder of the foreign policies enunciated by his chief, and frequently important negotiations were carried on by Mr. Wilson without even the knowledge of Secretary Lansing.

President Harding will extend to Secretary Hughes the independence of action to which his intelligence entitles him. The people are familiar with the career of the new premier, and are as ready as Mr. Harding to entrust our foreign relations to his keeping. The action of the President-elect is renewed evidence that his is not to be a one-man administration. His cabinet will be men of independent thought and action, rather than minds chosen to "run along" with his own. The freedom accorded by Mr. Hughes will doubtless be enjoyed by his cabinet colleagues and the country will receive the benefit of the composite judgment of 11 men rather than suffer the imposition of a single will upon the executive department.

DISCRIMINATION AND THE TARIFF

"Retaliation" is a free traders' bogey. Discrimination is a very real condition which actually confronts us," asserts the Republican Publicity Association. "Those free traders who are trying to scare Republicans away from tariff revision upwards with hair-raising warnings of what the foreigners will do to us, would do well to scan the testimony which has been given to the Ways and Means Committee showing what the foreigners are doing to us by way of discrimination against our goods. And all we have to combat it is a stuffed club tariff rated at 6 per cent actual ad valorem and about 2 per cent effectiveness due to foreign currency depreciations."

"The National Foreign Trade Council, by no means a high protection organization, recently presented evidence showing that the following products when imported into Great Britain from other parts of the empire, are admitted at reduced rates: Currants, dried or preserved fruits, sugar, glucose, molasses, saccharin, motor spirals, motor cars, musical instruments, clocks, watches, and cinema films. These places American exporters of these products at a decided disadvantage in comparison with competitors located anywhere within the British empire," says the Council. Moreover, large sections of Africa restrict the exports of many of their products except to British ports and destinations.

FEDERAL AID ROAD BUILDING

Federal aid highways constructed last year cost more than double the average amount spent annually for 10 years in building the Panama Canal. The cost of the work completed during the fiscal year of 1920, including the amount paid by the States, totaled approximately \$80,000,000. The construction of the canal is regarded the world over as a record-breaking achievement in respect to the dispatch with which it was carried out. The cost, however, was only \$379,000,000, and a 10-year period was required to complete it, the average rate of expenditure being only \$37,000,000 a year.

Comparing the magnitude of the federal aid program with the entire highway program of the United States, the significance of Federal aid is readily seen. Federal money allotted to projects actually under construction at

the end of the fiscal year 1920, namely, \$103,925,094, was only slightly less than the total expenditure of \$106,861,053 from State funds for highway construction during the calendar year 1919. In spite of untoward economic conditions, the amount of Federal aid business handled, as represented in 1920 by the number of projects, was approximately 25 per cent greater during the single year than all previous work done under the act since 1916.

FARMING ACTIVITIES IN GREENE COUNTY

Farmers Near White Hall Have Record of Sowing Oats in February—Other News Notes from White Hall and Surrounding Territory.

White Hall, March 2.—There is a general disposition to engage in outdoor work such as farming and gardening. There is considerable plowing for oats, and Nathan Tanner, residing northwest of town, has already sowed his oats crop, as has another farmer in the vicinity of Patterson, both of whom have the record of having sowed their oats in February. Wheat continues to be in splendid condition, but the ground up to yesterday was beginning to show the need of moisture by cracking. Last night a copious shower came, 0.12 inch, which will be of some assistance in the drouthy condition of this section.

C. A. Ruckel, the stoneware manufacturer, was in his garden Tuesday planting potatoes, and it is reported that others have already planted potatoes and other garden truck, and that much gardening is on tap. Maple trees and rose bushes are budding, and various species of birds lend cheer to the weather splendor. Advices from Florida and California indicate that the Illinois winter has been more ideal than in those winter resort states.

The congregation of the First Baptist church is preparing for the annual St. Patrick dinner and bazaar on the 17th inst.

CHAPIN GRADE SCHOOL BUILDING DESTROYED

Fire Discovered While School Was in Session—Most of Contents Saved.

The grade school building at Chapin burned to the ground Wednesday morning. The fire was discovered about 10:30 o'clock by some of the lower grade children, who were at play in the school yard. The fire was discovered in the cupola of the building and probably originated from a chimney spark.

Miss Mary Black is principal of the building and when she heard one of the children give the alarm she speedily instructed the teachers in the various grades to dismiss their pupils and to instruct them to move from the building in an orderly way, as there was no danger. The pupils of the high school not far distant soon learned of the fire, as did the residents of the village. The chemical fire engine that Chapin owns was hurried to the scene but the tank was empty.

With the service of volunteers a bucket brigade was organized but very little could be done to save the building. A message was sent to Jacksonville at 11 o'clock calling for assistance and 45 minutes later Chief Hunt arrived at the fire with a truck. Meanwhile high school pupils and citizens had removed practically all of the furniture and fixtures of the rooms, as the fire burning from the cupola downward made this possible.

The building, which is a two-story brick one, was erected in 1890. Until the establishment of the community high school it had been used for both high school and grade purposes. There were between 125 and 130 pupils at the school when the fire was discovered. Miss Black's method of dismissing the pupils was generally commended by the parents. William C. Hunter took with him William Catherwood and Pearl Iglehart and the trip was made in splendid time, for the road was rough much of the distance. The actual driving time was 25 minutes. While the Jacksonville firemen could do nothing to save the school building, they were of service in protecting a number of nearby barns and residences.

PEORIANS PLEASED WITH PAVEMENT RESURFACING

Work Done After Thorough Investigation Has Satisfactory Results.

The resurfacing of paved streets is practical and economical if the work takes exact conditions into account. This is the opinion of the commissioner of streets in Peoria as quoted in the Decatur Review.

"I was talking with M. J. Monahan, commissioner of streets at Peoria last week," said Carl H. Temple, of Decatur, "and he was telling me about the resurfacing which they are doing there and how carefully they investigated the matter before they started in on recovering their old brick streets."

"Monahan is looked upon in Peoria as one of the really great Peorians because of his efficiency in the street department. He had the Peoria officials investigate all kinds of re-surfacing materials independent of any concern which handles paving materials. They studied the Kentucky asphalt and the sheet asphalt, studied plans and specifications followed in other cities and decided that the re-surfacing of brick streets, streets which have been down for many years which are curbed and settled tightly into their places, was practical, profitable and economical."

Thoroughly Investigate.

"But they did not depend on their own judgment. They sent to Chicago for two engineers from the street department of that city to come to Peoria to investigate conditions there and to make recommendations. These engineers made a close study of Peoria traffic conditions and one of the interesting figures developed was that there were ninety-five motor vehicles on Peoria's streets to one horse drawn wagon."

"Mr. Monahan told me that the old brick streets were leveled with crushed rock, a binder of liquid asphalt put on that and then the sheet asphalt laid over all. This is being done at a cost of a little less than half that of new brick pavements."

Are Satisfied.

The Peoria officials said that they are using the same general specifications which are used in constructing the boulevard surface in Chicago and they are satisfied that they are getting excellent, long wearing, smooth surfaced streets at a low cost by using the old brick pavement for a base. But Monahan indicated that their independent investigations were not favorable to rock asphalt as a re-surfacing material.

A Masonic school of instruction will be held for two days beginning Wednesday morning, March 2nd, at 9 o'clock. Bro. J. E. Jeffers in charge. Sessions morning, afternoon and night. All Masons of this vicinity are invited to avail themselves of this opportunity to perfect themselves in the standard work.

ILLINOIS BASKETBALL MEN TO TOURNAMENT

Coach Harmon Takes Ten Men to Decatur Tournament — Play Second Schedule This Morning at 9 O'clock.

Coach Harmon and his Illinois College basketball tossers left Wednesday afternoon for Decatur where they will take part in the state basketball tournament.

The men left by automobile to Springfield and took an interurban car from that place. This was made necessary because of the Wabash discontinuing the east-bound train about 5:30 o'clock. The train later in the evening would get the men in too late to get a good night's rest.

Illinois will take part in the second game scheduled this morning, playing Northern Normal of DeKalb at 9 o'clock.

Coach Harmon took the following men with him for the tournament: Farrell, Harney, Antrobus, Brown, forwards. Mellon, center. Cully, Jones, Davis, Burrus guards.

A large and desirable shipment of Navy Tricotine suits. Some plain and some embroidered, beautiful models. Just received and marked very reasonable for quick selling at Herman's.

BABY BORN ON PEACE DAY

After Mother Had Been Restored to Health by Lydia E. Pinkham's Vegetable Compound

Salisbury, Mass. — "For seven years I had a female trouble and such bearing-down pains I could hardly do my housework. The doctor said, 'If you can have another baby it might be the best thing for you but I am afraid you cannot.' I began taking Lydia E. Pinkham's Vegetable Compound and my baby was born on 'Peace Day.' If women would only take your Vegetable Compound they would have better health. (always recommend.)" — Mrs. TRACY PATTER, 2 Lincoln Ave., Salisbury, Mass.

The experience of maternity should not be approached without careful physical preparation, as it is impossible for a weak, sickly wife to bring healthy children into the world. Therefore if a woman is suffering from a displacement, backache, inflammation, ulceration, bearing-down pains, headaches, nervousness or "the blues" she should profit by Mrs. Patton's experience, take Lydia E. Pinkham's Vegetable Compound and be restored to health.

Look Out for Rheumatism As Winter Approaches

If you have had the disease for any length of time, you have doubtless resorted to the misleading treatment of liniments and lotions, in an effort to get relief from its torturing pains. But you want more than mere temporary relief. You want to be freed from the shackles of a disease that will bind you hand and foot.

So many cases of Rheumatism come from a tiny disease germ that infests the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by

local remedies applied to the surface. One remedy that has given splendid results in the treatment of Rheumatism is S. S. S., the fine old blood remedy that has been sold by druggists for more than fifty years. S. S. S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief. Begin taking S. S. S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Will You Stick?

"This Farm Bureau thing costs too much," said a Nebraska merchant to several farmers gathered in his store. "County dues are all right, but putting up for a lot of state and national officers is different. You don't know how they'll spend your money."

"Let's see, don't retail merchants have both state and national organizations?" asked one farmer.

The merchant colored, but admitted they had. The farmer asked if he belonged to any of them.

"That's my business," sputtered the merchant.

"Yes, and I guess the Farm Bureau is my business," spoke up another farmer. "I hadn't joined it before, but I'm going to now. If a national organization is a good thing for merchants and bankers and manufacturers, it's a good thing for farmers, too."

This story has its lessons to farmers everywhere. There are some 400 national business men's organizations, all supported liberally, all doing effective work for their membership. Every big business has had a national organization except farming. Food speculators believe in organization for themselves, but not for the farmers. They hope you will quit the Farm Bureau.

Our advice to you is to stick to the Farm Bureau Federation. It is proceeding steadily and surely. It already has accomplished some fine results. It will accomplish many more if still more farmers get back of it and stay back of it. Take a tip from the members of the big national trade organizations—they are loyal.

The farmer needs a national weekly, too, just as much as the banker needs his financial journal. THE COUNTRY GENTLEMAN fills that requirement. Its interesting and important news articles are gathered from all parts of the country. It presents a nation-wide view of farm problems and opportunities. There is a lot of good reading in it, too—splendid fiction, inspiring editorials, wholesome humor. Only \$1 brings you 52 big issues.

PRESIDENT-ELECT IS MOVED BY EMOTION IN FINAL FAREWELL

(Continued from Page One.)
am going to my work with confidence that all will be well. I believe in the security of this American Republic. I believe that sort of American citizenship is right. I believe that the hundred millions of Americans will be back of a right minded executive just as cordially as you speak your friendship to me here today.

"I know that I take office in the love of my fellow countrymen. I have made it a practice in my life to speak well of my fellow men and ever do good. I have neither envy nor jealousy in my heart. I feel that I am like the great citizenship of America—there is no hatred there. I should never be prouder in all my experience than to apply this kindly feeling with myself to the inauguration of a spirit of nationwide good will in this republic.

Asked for Their Prayers
"I want to go to Washington with your prayers as well as your friendship. Tho I may not always be the ideal I want you to know that in my heart there is a reverence for Almighty God. I believe that He had his part in directing the destinies of this free people. I want Him to know of our prayers. I want Him to know of our trust in Him and with trust in Him and confidence in ourselves we need have no concern for the future of the republic."

At the end of the speech the president-elect and Mrs. Harding stood for more than an hour shaking hands with their friends and telling them goodbye. Last of all in the long line came a great Newfoundland dog, a pet of the neighborhood, who had played about the Harding residence during many previous front porch meetings.

"Goodbye, old fellow," said Mr. Harding reaching down and an appreciative paw was extended in mute reply.
Then just as the president-elect was turning his back on his home for a long absence, he spied the self-appointed caretaker of the place, "Uncle Charley" Patton, a Democrat most of his eighty years, but an ardent Harding man. He was industriously cleaning the sidewalk as he had done after every other front porch meeting since the campaign began.

"Uncle Charley," said Mr. Harding, "some of the boys have told me you might like to help the administration by keeping the white house grounds in trim. Well, if you are thinking of going down to Washington for the inauguration, just buy a one-way ticket, the same as I did, for we're not coming back right away."

Harding Pays Tribute
Marion, March 1.—Deep regret was expressed by President-elect Harding tonight on the eve of his departure for Washington. The two men had been friends for many years, having been associated together both in affairs at Washington and in their rounds of the Chautauqua circuits.

As soon as word of the veteran Democratic leader's death reached Marion today Mr. Harding sent this telegram to Mrs. Clark at Washington:
"I am deeply grieved to learn of the death of Mr. Clark. I deeply respected his marked ability and his splendid public service and had come to hold him in very affectionate personal regard. I know that all who knew him will join me in wishing that your sorrow may be tempered in the consciousness of the country grieving with you."

MISS BARTON WAS SHOT TO DEATH

(By The Associated Press.)
Washington, March 2.—The senate judiciary committee was authorized tonight by the senate to continue during the coming recess of congress its investigation of loans by the United States to foreign countries before and after the armistice.
The resolution was drafted by Senator Reed, Democrat, Missouri, upon request of the committee, after the treasury department, pursuant to a demand of the committee, had delivered to it six boxes filled with photostatic copies of the correspondence covering loan negotiations with France, Italy, Siberia, Greece and other countries.

The committee did not undertake the task of assorting the correspondence which was turned over to the senate sergeant-at-arms, but directed Assistant Secretary Kelly of the treasury to obtain from Secretary Colby the assorted files of the correspondence.

Manager William Gleason also arrived today and began preparations for the departure of the club on Friday for the training camp at Waxahatchie, Texas.

SOLDIERS' BONUS FOR ILLINOIS VETS REPORTED FAVORABLY

Provides Payment of \$15 for Every Month of Service

WOULD HELP BUILD WAR MEMORIAL

(By The Associated Press.)
SPRINGFIELD, Ill., March 2.—The American Legion's bonus bill to give every honorably discharged Illinois Veteran of the World War \$15 a month for every month served in the United States military or naval forces was reported out with recommendations that it pass by the house military affairs committee today.

There was only one dissenting voice. Representative Barber of Sangamon county, explaining his negative vote by saying that he believed some immediate action for the relief of disabled and dependent veterans should be taken before the bonus is given to all the ex-service men.

The committee went on record favoring an appropriation of \$1,000 as a contribution to a fund to erect a \$150,000 war memorial at Camp Merritt. No other state has been asked by the Camp Merritt memorial association to contribute to the fund.

CONGRESS CLEANS UP TEN IMPORTANT BILLS AS END NEARS

Only Three Supply Bills are Now On the Official Calendar

ABANDON HOPE ON SEVERAL BILLS

(By The Associated Press.)
WASHINGTON, March 2.—Congress within a day and a half of adjournment tonight cleared its calendar of ten of the thirteen annual supply measures and leaders were still hopeful of getting two others—the army and sundry civil bill thru at the last minute.

The fight on the naval bill was continued in the senate and indications were that it finally would take its place with the great mass of bills which were regarded as certain to die with this congress.

Among the measures for which hope had been abandoned were those proposing compensation for former service men, regulation of cold storage and the meat and coal industries, \$100,000,000 for state road aid, a federal budget system, reorganization of the patent office and many others regarded as of less importance.

President Wilson has signed six of the supply measures passed. These are the postoffice, diplomatic, District of Columbia, rivers and harbors, pension and deficiency. Sent to him today were the legislative, Indian and agriculture bills. General legislation awaiting the president's signature includes the emergency tariff bill which reached the white house this morning and was referred for report to the treasury department. The immigration restriction bill, now before the labor department for a report and the resolution repealing most of the special war time laws.

STATE SCORES IN MURDER TRIAL

(By The Associated Press.)
KANSAS CITY, March 2.—Testifying late today at the preliminary hearing of Densel Chester, charged with the murder of Miss Florence Barton, a society girl, the night of Saturday, October 2 last, Mrs. Blanche Ryan at whose apartment Chester boarded declared that on the Monday following the killing he told her she should say that he reached home at 11:30 p. m. and later went to drug store for her. Chester also told her, she said, that she must never say she saw him wearing a brown suit and a cap.

Miss Barton was shot to death on a lonely road by a supposed highwayman while driving in a motor car with Howard Winter, her fiancé. According to Winter, the man who did the shooting wore a brown suit and a cap. Winter has identified Chester as the slayer.

RETURN TO OLD METHODS MEANS CHAOS

(By The Associated Press.)

CHICAGO, March 2.—The railroad labor board today put in effect a new schedule for the general rules hearing over continuation of the national agreements and when adjournment was taken until tomorrow representatives of the clerks had not yet finished their testimony. To give the board more time for the mass of cases now before it, the convening time was moved up to 9:30 and will continue thru until 1 o'clock each afternoon hereafter.

The new arrangement will permit executive meetings of the board in the afternoons.

E. H. Fitzgerald, president of the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees was still on the stand when today's session ended. He was concluding two days' testimony in which the clerks declared that a return to old methods of working would create chaos among the employees and under the present national agreement, employees were doing more efficient work than ever before.

WILL LOOK INTO FOREIGN LOANS

Senate Judiciary Committee Will Continue Investigation of Loans by United States to Foreign Countries During Recess.

(By The Associated Press.)

WASHINGTON, March 2.—The senate judiciary committee was authorized tonight by the senate to continue during the coming recess of congress its investigation of loans by the United States to foreign countries before and after the armistice.

The resolution was drafted by Senator Reed, Democrat, Missouri, upon request of the committee, after the treasury department, pursuant to a demand of the committee, had delivered to it six boxes filled with photostatic copies of the correspondence covering loan negotiations with France, Italy, Siberia, Greece and other countries.

The committee did not undertake the task of assorting the correspondence which was turned over to the senate sergeant-at-arms, but directed Assistant Secretary Kelly of the treasury to obtain from Secretary Colby the assorted files of the correspondence.

NO CLUE TO ROBBERS OF THIO BANK

Dalton, Ohio, March 2.—Officers were without a clue tonight as to the robbers who early today broke into the Dalton Banking Company and escaped with Liberty and other bonds, deeds and other legal papers, said to be worth \$125,000, which they took from safety deposit boxes. Government stamps worth \$650 and \$114 in nickels and pennies also were taken.

Entrance was burned thru the vault with an acetylene torch but the robbers failed to get into the safe where the currency was deposited.

PITTSFIELD TAKES GRIGGSVILLE GAME

Defeat Old Rivals By Score of 23 to 11—Pittsfield Takes Part in Missouri Tournament.

Griggsville, March 2.—Pittsfield high easily defeated Griggsville high here tonight, the final score being 23 to 11.

Despite the fact that Pittsfield was without the services of Walsh her star guard, she had little trouble in winning and Coach Foltz used many substitutes in the latter part of the game.

The main cogs in the Pittsfield offense were Plattner, Cawthon, Niccum and Fowler. Ireland and Pence scored all of Griggsville's points.

Walsh of the Pittsfield team was in St. Louis taking an examination for admittance to West Point next fall. While many colleges in the middle west will regret to hear this, the students and coaches of all of them will be pulling for him to pass and get the chance.

The Pittsfield team goes to Canton, Mo., Friday where it is entered in a tri-county tournament. The boys are hoping to bring back the bacon and incidentally get some excellent workouts for the district tournament at Quincy next week. The score:

WAGING CAMPAIGN AGAINST GAMBLING

Principal Shafer Calls Attention to Danger Which Threatens Interscholastic Athletics.

Every effort will be made to prevent gambling or betting of any kind in connection with the district high school basketball tournament which is to be held here three days next week. Principal Shafer of the Jacksonville high school is manager of the district tournament and said yesterday "I expect to use every means at my disposal to have the tournament here conducted as it should be and to assist in the campaign against gambling in connection with athletics which is being waged in Illinois."

Because of the danger threatening high school athletics from a gambling source, a pamphlet has been issued by the Illinois High School Athletic association and is being given wide circulation. Communications are presented from President Kinley of the University of Illinois, and the officers of various influential organizations pledging their support to avert the danger. Mr. Shafer has called attention to this pamphlet and to the statement of Secy. Smith of the state association, which is as follows:

"The Illinois High School Athletic association through its board of control has become more and more concerned because of the growing menace of gambling in connection with interscholastic athletics. It pollutes the moral ideals of every student body, where it gains a foothold. It sets up false prizes for athletic victory; it destroys the true spirit of sportsmanship on the part of student spectators at the games. Sometimes it corrupts coaches. It attracts to interscholastic games sordid-minded hangers-on whose attendance is a damage to school and college athletics.

"In short the practice of gambling is so destructive to these sports that they are now in danger of being immediately degraded and finally destroyed if something is not done to stop it. Much! The law against gambling should be enforced in every city where a high school or college contest occurs.

"Public sentiment against such a practice should be developed to such a pitch that any man who bets on a contest where boys are concerned will be permanently disgraced."

WILL MOVE RELICS TO SPRINGFIELD

New Custodian of Lincoln Monument Owns Valuable Lincoln Collection.

Herbert Wells Fay of DeKalb, who has been appointed by the department of public works and buildings as custodian of Lincoln monument to succeed the late Major E. S. Johnson, was in Springfield Tuesday making arrangements for the removal here of his valuable Lincoln collection March 15. Mr. Fay, as explained in the Springfield Journal, plans to house the collection temporarily in the custodian's lodge near the monument. When the new Centennial building is completed, it is probable that the collection will be removed to the Lincoln room which is being prepared for it.

Mr. Fay is one of the best known collectors of historical pictures in the United States. He supplied a large number of the rare photographs used in the publication of the last Encyclopaedia Britannica. His collection totals about 1,000,000 pictures of historical personages.

Born in DeKalb county and a resident of that county all of his life, Mr. Fay early attracted attention as a collector. In 1875 while a student at Monmouth college, he decorated his room with two thousand photographs of noted people and began laying the foundation for the collection which has since made him well known throughout the country.

His pictures include the best known explorers, scientists, authors, inventors, statesmen, rulers, artists, musicians, military and naval officers, editors and captains of industry. His collection of Lincoln pictures and relics is one of the most valuable in the United States.

Ford, Mr. Charles Horn, Miss Rosemary Hilton, Mr. Frank H. Knight, Miss Adelyn Wesley, Mr. Fred C. Palmer, Miss Ramona Weaver, and Mr. Joseph Prosser. The book of "Adam and Eva" is by Guy Bolton and George Middleton. There is a delightful thread of romance, laughter and suspense in "Adam and Eva" which pleases all classes of theatre-goers and the story moves straight to a happy climax.

MAKING PLANS FOR STATE FAIR

Plans to make the Illinois state fair of 1921 a record breaker for special features and in point of attendance were discussed at the first meeting of the new fair advisory board in the office of B. M. Davison, state director of agriculture.

The nine board members were assigned to departments over which they will have supervision, and will begin at once to plan for the exposition, which will be held August 19-21.

MR. RAINEY NAMED FOR TARIFF BOARD

Congressman Henry T. Rainey of Carrollton has been appointed by President Wilson as a member of the federal tariff commission. This position comes as a reward to Congressman Rainey after a long period of service in congress. During a large part of his congressional career he has been a member of the house ways and means committee and at least from a Democratic viewpoint is considered well informed on tariff questions.

Your reporter was shown thru the new bank recently by the efficient cashier, Walter McCarty. Mrs. McCarty is assistant cashier. The new building is extra lighted, and has all the marks of an up-to-date country bank where the farmer can feel at home. Desks are provided for all customers to use as they may need. The vault is much stronger than the old one. The customers' valuable papers are as well cared for as their money. The location of the new building is also an improvement, being a corner lot.

The home talent play to be given next Friday night at the Jacksonville Central Christian church basement promises to be well attended. Concord and Chapin folks who may attend will see at least one old acquaintance on the stage. The admission fee is small.

Our neighboring village of Chapin is fortunate in securing the able services of Brother F. M. Crabtree of Jacksonville. His sermon last Sunday night, "The Unpardonable Sin," was well worth hearing. Make Your Feet Happy! Remove Those Corns With "Gets-It."

Home-made Remedy Stops Coughs Quickly

The best cough medicine ever used. A family remedy easily and quickly made. Saves about \$2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Pour 2½ ounces of Pinex in a pint bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses—honey, or corn syrup, instead of sugar syrup, if desired. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for healing the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Wayne, Ind.

MONEY MARKET

SLIGHTLY EASIER

(By the Associated Press.)
NEW YORK, March 2.—Trading
on the Stock Exchange today
represented little more than a
contest of wits between profes-
sional bulls and bears the ad-
vantage resting with the con-
structive element at the firm
close.

Noteworthy features of the re-
covery in progress during the
final hour included Atlantic
Gulf, Crucible Steel, Mexican
Petroleum, Tobacco Products
and Kansas City Southern at net
gains of 1 to 4 points. Sales
amounted to 475,000 shares.

The money market was slight-
ly easier, call loans declining
from 7 to 6 per cent at mid-day.
Interior banks bought moderate-
ly of commercial paper, but offer-
ings of time funds were no
more liberal than recently.

NEGLECTED FEET

J. Lloyd Read, who is a salesman in the Hopper shoe store in Jacksonville, and has for several months made a scientific study of foot troubles, while visiting home folks last week made a thirty minute talk before the high school Friday morning on treatment and care of the feet.

Mr. Read seemed thoroughly at home in his subject, and brought before the students the fact that one-fourth of the bones of the body are confined within one's shoes. Yet in spite of this, we hear a great deal about the eye, ear, nose and throat, but very little about the feet.

The speaker went into the anatomical construction of the feet thoroughly and explained how by the use of proper appliances of simple construction it was possible to relieve and banish many of the foot troubles to which people are subject. He told how corns, bunions and fallen arches often affect the nerves and cause other troubles, and his talk was appreciated by both pupils and teachers.
